Highway Robbery Staged Last Night On Benton Street

An \$11 highway robbery of a beer distributing agency office was staged in Granite City on Benton street at Wisconsin Park about 6 o'clock last night. The bandits were after funds from the agency.

The victim, who was unnamed, was Oliver Bruch, 68, of 2226 Cleveland blvd., who said two armed and masked men robbed him of \$11 at gunpoint. Afterward, they ordered him out of the car and told him to "walk that direction," pointing to the north.

Bruch said the bandit pair, both young men wearing ski masks, took him to the rear of his car, fled south on Benton street in an old-model car.

"It was unusual," he commented. "Not a single car passed while they were holding me up."

After being ordered out of the car, Bruch walked to the rear of his home on his son, Walter Bruch, 2731 Michigan avenue, to the police station.

Bandits Caused Accident

Relating the details, Bruch, who is office manager for Namekoki-Murdoch Beer Distributors, said the victim of a sizeable hold-up in June 1956, said that he was on his way home and had just driven onto Benton street from Peabody road when a car forced his way over into the shoulder and caused a front-end collision.

"They stopped in front of me. I thought it was an accident and they were getting out to see what damage was done to the car."

"Instead, they came up to my car and I noticed they were armed. One of them pushed a gun at me and said, 'Give me the money.'"

"I had a paper bag on the seat and he reached over and tore it open. Only my thermos bottle was in it. He insisted that I had some money, and he told him to get out of the car and was giving instructions."

"Finally, he asked for my wallet and told me to give him the money. I gave him a \$5 bill and six \$1 bills."

"He took my car keys and then ordered me out of the car, telling me to 'walk that direction' to the north."

As Bruch walked away, the bandits ran to their own car and drove south on Benton street.

The holdup victim said there still was no traffic on the usually busy thoroughfare, and he was not alone, asking him to notify police.

"When I returned to my car, I found my wallet and some cash, traffic was tied up for several blocks."

Store Hours For Rest of Week Set

Granite City merchants will remain open until 8:30 tonight, and Friday's schedule will find them open from 9 a.m. to 8:30 p.m.

Day-before-Christmas closing on Saturday will be earlier.

Under the policy set by the Associated Retailers & Civic Association, all retail stores, excepting groceries, will close at 5 p.m. Saturday. The food markets will remain open until 6 p.m.

"Today and Friday, the showing of free movies for the youngsters continues at the Washington theater. The free showings, now, today and tomorrow, No admission card or ticket is necessary to attend the films, presented by the Associated Retailers."

A 10-to-5 vote Monday night indicated the Granite City council's willingness to spend \$97,000 of its motor fuel tax funds to assure construction of a million-dollar shopping center on the west side of Namekoki road, north of Fenling road.

The vote approved a resolution to be forwarded to the state highway department seeking an order for the highway department for the proposed street — the first step toward requesting the state to build the road.

An hour-long debate preceded passage of the resolution during which Alderman Donald Farney brought out the city has committed expenditure of \$95,000 motor fuel tax funds, while it has \$35,940 to its credit.

"And that \$35,940 figure does not include the city's share of the estimated cost of \$325,000 for the proposed improvements on Namekoki road, which is the 20th street between Madison avenue and Edwardsville road," Farney said. (About \$25,000).

Nann's Explanation

Alderman Walter Nann said special means would be sought to finance the road construction, explaining that it would require a trip to Springfield to confer with state highway officials.

"It can be worked out," he said confidently.

Nann stressed his personal uneasiness, pointing out he was supporting the roadway which was not in his ward. He said the \$95,000 motor fuel tax funds would be financed over a five-year period.

Salvation Army Distributing 400 Christmas Baskets

In a \$3475 candlepower glow, the Salvation Army's "Tree of Lights" today testified to Quaker City generosity and giving to insure that the lesser fortunate do not face a holiday season without the joys of a Christmas basket.

Early this morning, the tally of cash donations and credits for individual, group and club baskets and canned goods contributions making possible the Army's 400 Christmas baskets were \$3475. Contributions still are being accepted.

This, representing 77% of the \$4500 goal, was reflected in 139 lights burning on the 20-foot fir on the postoffice grounds. For each \$25 gift, a light is added to the strand of 180 bulbs.

Additional to the "Tree of Lights" fund are expected today, tomorrow and over the Yuletide weekend. These will include monies given to the coin collection held on 19th street.

Distribution of the Army's Christmas gift baskets, laden with food, staples, goodies and children's playthings, got underway this morning at Venice.

Friday, between 9 a.m. and noon, the Army will distribute the baskets to the needy, want-to and unemployed applicants at the Christmas Cheer Headquarters at 1824 State street.

Recipients must call for them, said Capt. Mildred Walker today.

The Salvation Army today announced the names of donors to be added to the "Tree of Lights" subscribers' bulletin.

Mr. and Mrs. Noel Phelps, Granite City Motor Express, Granite City Fire Fighters Lodge 253, the U. S. Army Missile Support Detachment at the Granite City Engineer Depot, and the Fraternal Order of Eagles Lodge 1126.

Mr. and Mrs. Phelps gave \$50, others, with the exception of the Eagles, \$25 each. The Fraternal order was credited with \$500 for 400 candles of foodstuffs.

The Army headquarters noted that in the total, were numbers of anonymous donors, as well as several clubs and organizations.

"This is a partial, tentative accounting," Capt. Walker explained this morning. "We are to make other credits and there are no doubt others who will wish to join in giving to the 'Tree of Lights' fund, and I want to assure them their contributions are not only welcome, but needed if we are to meet the bill for all the 400 baskets going out this season."

Retailers Announce Winners Of Four Santa Claus Bikes

Ready for Christmas eve delivery to their homes are four shining, new bicycles to go to much merrier the holidays of a foursome of Quad-City boys and girls.

They go as Christmas gifts of the Associated Retailers & Civic Association, and the two boys and the two girls to receive them were chosen yesterday at Santa's Log Cabin Headquarters.

And here are the lucky recipients:

Barbara Stull, 2040 Milan ave. nua, Madison; Debbie Scharf, 2522 Palmer avenue, Granite City; Michael Milton, 1613 Mitchell avenue, Granite City, and

Robert Hollenbeck, 1611 Fourth street, Madison.

They were among the thousands of youngsters who registered to become eligible for one of the four grand prizes, Alvin T. Barnes Jr., executive director of the Associated Retailers, said that truck delivery will be made late Saturday afternoon to the homes of the winners.

Barnes, Santa Claus, Mayor Leonard R. Davis and Christ Peshoff, manager of the Washington theater, were on hand for the ceremonial selection, under the mayor's leadership.

The winners' bikes will remain on display in the theater lobby until late Saturday for all to see—and perhaps envy.

Retired GC Steel Executive Dies In Car

Kerr M. Cressler, 70, retired assistant treasurer of the Granite City Steel Co., collapsed and died of a heart ailment in his automobile Tuesday.

His car struck a station wagon at Forsythe blvd. and Jackson avenue, Clayton, Mo.

Mr. Cressler retired on Aug. 31, 1954, after 31 years with the steel company. He lived at 7019

Northmore drive, University City, Mo. He was a native of Fort Wayne, Ind.

Police said Mr. Cressler, driving east on Forsythe, had stopped for a traffic light. Witnesses saw his car suddenly lurch forward and strike the rear of a station wagon, occupied by two women.

Mr. Cressler was pronounced dead on arrival at St. Louis County Hospital. Funeral services and burial were to be held today at University City.

Roy Willmizig Sr. On Critical List

Roy L. Willmizig sr., 68, of 619 North 10th street, East St. Louis, remained in critical condition at the John Cochran Veterans Administration Hospital after being robbed and severely beaten late Saturday.

The East St. Louis man was found about 1:30 a.m. Sunday in an outdoor telephone booth near his home.

His pockets had been emptied and identification was made through a Christmas card from a son, Roy L. Willmizig jr., a sales engineer who lives at 2010 Pontoon road.

The victim has been unable to give a coherent account of the assault and robbery, the son said, and is not expected fully to recover consciousness until Friday.

The senior Mr. Willmizig suffered a fractured skull, contusions and there was internal bleeding. A ring and watch were gone, along with an undetermined sum of money. The booth in which he was found by police is within eight blocks of his home.

Taken to St. Mary's Hospital, East St. Louis, he was later removed to the St. Louis hospital.

Police reported they had to force open the door to the booth because it was wedged shut by the unconscious Willmizig. They surmised he had attempted to summon aid before losing consciousness.

He resided with another son, Frank.

O. E. Hodge Clemency Petition Is Filed

The petition for pardon or commutation of sentence for former State Auditor Orville E. Hodge was filed Tuesday in Springfield with the Illinois Parole and Pardon board.

It was prepared by Attorney Randall Robertson, who prepared the petition.

Robertson explained that while the petition was addressed to the governor, state law requires for it to be filed with the board, directed to the attention of the governor.

The local attorney said today he has not heard if Gov. Stratton plans to act on the petition. Stratton is due to leave office on Jan. 9, the day before the scheduled meeting of the Parole and Pardon board.

Hodge was sentenced to 12-to-15 years in the state penitentiary in 1936 for theft of \$1,500.00 state funds, all of which has been recovered.

Surprise Event

Housing Director Given Citations, 'Life' Album

It was holiday party time and the occasion for tributes, recognition and thanks for the work and achievements of the development's executive director Tuesday night at the Kirkpatrick Homes Christmas frolic and dinner.

It was a "family" affair of Kirkpatrick Homes residents, the young and the old, sponsored jointly by the Golden Age Circle and the youth groups—the Teen-Agers, the Pre-Teens, the Early-Birds, and the Sea Scouts.

There was a turn-out of about 200 persons in the Recreation Hall, appropriately decorated in the Yule motif.

For David Morgan, executive director of the Granite City Housing Authority, it was an evening of multiple surprises and testimonial getting. They came from many fronts.

Honored by IYC The Illinois Youth Commission's division of community services presented Morgan a scroll, a certificate and recognition for his outstanding service to the youth of the community.

Presentation was made on behalf of George W. Withey, superintendent of the division of community services. Due to driving difficulties, Withey was unable to turn-back to Springfield following a start Tuesday to Granite City.

But that was not all the surprises in store for the executive director.

There was a pictorial album review, abstract in the form of "This is Your Life, David Morgan." Fashioned of letters, telegrams and other expressions of friendship, recognition and acknowledgment, the album covered facets of Morgan's life from youth, through army service and friendships.

There were photographs of the presentation were numbers of Morgan's closest personal friends and former services "buddies."

Surprise For Morgan "It was all a surprise to me," Morgan said, "and you can believe it was a heartwarming thing to be so remembered by friends and colleagues and the 'home folks' of Kirkpatrick Homes."

To this outpouring of plaudits and expressions of thanks for his friendship, there was a gift from the Sea Scouts. Representatives of all the youth groups were on hand. Spokesmen for

the youth clubs were Harold "Buz" Vaughn, king and Mildred Nicholls, queen.

Ben Oliver is president of the Golden Age Circle, made up of the older, senior residents of the housing development. Oliver was chairman of the Christmas party, in general supervisory capacity of the occasion.

Girls Hurt When Hurled From Auto Trunk

Miss Shirley Houser, 17, of 2915 Edwards street, Granite City, was treated at Centerville Township Hospital for injuries sustained when she and a girl companion were thrown from the trunk of an automobile in an accident.

She was hospitalized with head and back injuries, multiple cuts and abrasions. She is the daughter of Mr. and Mrs. Jesse Houser.

The girl and a companion, Miss Cathy Montine, 15, of 725 North 86th street, East St. Louis, were hurt Monday night when their car was struck from the rear as it turned into an Alorton drive in theater.

When the rear was struck, the trunk cover flew open, sending the pair out on the pavement. They apparently had huddled together in the trunk.

East St. Louis police said Paul M. Montine, 17, was turning left into the street when his car was hit by one driven by James W. Morgan, 42, of 301 S. 18th street, Belleville.

In the front with the Montine youth was a companion, David Houser, 18, also of Granite City.

Front seat occupants suffered no injuries, requiring hospitalization and neither did Morgan.

Youth Charged With Breaking Into Home

Bedford J. Brawley, 17, of 205 Dixon road, Kent Island, was charged by Venice police Monday with breaking and entering at 525 Garner road, Dec. 16.

Waiving a preliminary hearing Monday evening before Police Magistrate Wesley Edwards, Brawley was bound over to the grand jury. With bond set at \$200, he was still in custody today. He was apprehended by St. Louis police, at the Venice department's request, after allegedly fleeing across the Merchants railroad bridge.

Nothing was taken from the home, but the contents of kitchen cabinet drawers were found on the floor, police said.

Warning Issued To Pontoon Beach Area Water Users

Andy Bukovac, chairman of the Pontoon Beach Water District board, issued a warning today to users of the systems water that they are subject to prosecution if water lines are frozen because of individuals opening water meter covers.

Bukovac said a number of residents are reading their own meters, and the contractor has advised him that by removing the covers in sub-freezing temperatures, the warm air escapes causing the meters and lines to freeze.

Burned Severely As Gown Catches Fire

Mrs. Lucille Boswell, 47, suffered third degree burns on her hands and arms and lesser burns on back and chest Wednesday morning when her night gown caught on fire at her home at 3105 Kirkpatrick Homes.

She was taken to St. Elizabeth Hospital, where she is hospitalized and being treated for her extensive injuries.

A brother, Don Russell, 1621 Palmrose avenue took her to the hospital. He explained he was unable fully to give an account of the accident. He was summoned to the Boswell home.

Russell said his sister was in much pain, and as far as he knew, the burns resulted when Mrs. Boswell's night gown caught fire. Just how this occurred, he said, he was unable to tell.

Michael Carnahan, 5, of 2300 Perry avenue, cut his chin Wednesday forenoon when a plastic icicle fell from a Christmas tree.

Three sutures were required to bind the wound. His father, Cecil, took him to St. Elizabeth Hospital.

Another youngster treated and released Wednesday afternoon was Linda Donoff, 13 months of age, who swallowed a quantity of rubbing alcohol. Her stomach was lavaged. She is the daughter of Mr. and Mrs. Alex Donoff of 328 Niedringhaus avenue.

Two Madison Schools Will Get New Fire Alarm Systems

A contract calling for the furnishing and installation of automatic fire alarm systems at the Dunbar school and Madison junior high school in Madison was awarded last night by the Madison school board to R. Don Electric Co. of Granite City on a low bid of \$1244 for both schools.

The new electric fire alarm systems are to replace manually operated alarms currently being used in both schools. Rite Electric Co. of Granite City was the only other bidder, submitting a bid of \$2890.

The systems to be installed are of the closed-circuit continuous-ringing type, with the operation of any alarm station to sound all alarms in the case of electric horns which will be mounted at strategic locations, he said, he was unable to tell.

The school board tabled any action on suggested building improvements for the summer of 1961 pending a tour of the Dunbar school annex during its next meeting, which was set for Jan. 11. A similar tour has already been made through the Madison junior high school.

Study Insurance Rates Supt. Samuel Brown was authorized to make a further study of building insurance rates and submit a report at a future board meeting.

In action involving school personnel, the board accepted the resignation of Mrs. Elizabeth Snell, who retired Wednesday as the 31st school year.

Armenta Griggs, who has been serving as a substitute cook, was employed to replace Mrs. Snell. The board also employed L. Baen school fifth grade teacher Robert Fuge as basketball instructor for fourth, fifth and sixth graders at the school, with a salary of \$175 for the remainder of this season.

Revised Rental Policy The board adopted a revised school facilities rental policy which leaves the initial \$25 fee intact but up extra-hour fees from \$2 to \$5 per hour after three hours. The policy includes all schools in the system, and will apply to all organizations seeking the use of classroom, gymnasium or cafeteria space for meetings and banquets.

November salaries approved for payment totaled \$48,779, and included \$39,447 for instruction, \$5005 for custodians, \$855 health, \$1296 clerical, \$464 attendance, \$153 legal and \$2130 for school lunch salaries.

Bills for November were \$32,386 in the educational fund, \$1098 in the building fund, \$40,274 in the 1959 building bond issue fund and \$4909 in the school fund, with the total approved for payment \$78,867.

Bi-State Endorsed As 2nd Airport Developer

The Tri-City Regional Port Board at a breakfast meeting here this morning endorsed the Bi-State Development Agency as the agency it favors to plan, build and operate a second major airport for the metropolitan St. Louis area.

Board Chairman Carl A. Ranft cited "a definite need for a second major airport" for the area, and stated that the best possible sites for such are located in Madison county.

The board passed a resolution endorsing all of its legislative ability to "allow the project to be finalized in the hands of Bi-State." The action was taken, Ranft said in order to speed up efforts toward solving adequately the metropolitan transportation problem.

Warrant Issued For \$175 Holdup Here

A warrant charging two former Granite City youths with the \$175 armed robbery Dec. 7 at Kates convenience store, 3700 Courtney blvd., were sent yesterday to New Orleans, La., by Madison county authorities.

The warrant was filed on information obtained by Granite City authorities who determined identification of the men, 20 and 22 years of age.

Chief of Detectives James R. Lowder said the local department was notified from New Orleans early this week that David Lee Anderson, 22, and Thomas F. Suddeth, 20, had been taken into custody along with two Granite City girls, 13 and 16 years of age, and that the men had admitted the stick-up of the confectionery which is located immediately outside the city limits.

Chief Lowder said the quartet was picked up in an auto that had been stolen in Aurora. Found in the car was a gun which had been reported stolen here from the home of one of Anderson's relatives. The local juvenile office is to seek the return of the two girls.

Granite City police were able to supply information to the county for issuance of the warrant. Chief Lowder said Anderson had served time in a state penitentiary for a holdup three years ago at the same store. It is not known if the two men will be returned to Madison county or if federal authorities will seek prosecution under the Fict Act.

GC Solons Order Crackdown On Downtown Double-Parking

A crackdown to end double-parking in the downtown business district was ordered Monday night by Granite City council members who said the goal was to alleviate traffic congestion.

City Atty. William Beatty was instructed to review the existing law to make certain it covers delivery trucks. If it does not, an additional law is to be prepared to prohibit double-parking by delivery trucks during rush traffic hours.

During the discussion, aldermen pointed to taxicabs as well as delivery trucks and motorists tying up traffic by double parking and ordered arrest tickets to be issued to violators.

Other Business
In other business, the council placed on first reading an ordinance to open State street from 21st to 24th street to two-way traffic.

Authorized preparation of an

ordinance to require realtors to place zoning classifications on for sale signs.

Approved an ordinance to vacate 181 feet of an alley between the 1400 blocks of Madison avenue and Iowa street and provide for a new outlet.

City Hall Parking Problem
Called for a study of parking congestion at the rear of the city hall building with instructions to the Police committee to provide sufficient parking facilities for the five police cars.

Approved purchase of two used typewriters for the police department from Triangle Type writer Co. at a cost of 160.

Rejected an agreement with the architect firm of Gabriel & Dugroff for supervision of the \$2518 remodeling job on the city hall building. Council members decided that rather than paying the 6% fee to the architects, the inspection should be carried out by the city building inspector.

Unlimited Long Distance Phoning Planned By Bell

A new long distance telephone service providing unlimited calling to other states for a flat monthly rate has been proposed by the Bell System in a filing with the Federal Communications Commission. It is called Wide Area Telephone Service (WATS for short), according to Roy Pelster, manager of the local office.

The proposed new service is designed for the customer who does a large amount of calling to widely scattered and distant points. It offers a choice of six prescribed calling areas outside his home state, Pelster explained. "With WATS service, a customer would pay a flat monthly fee for a special telephone line to be used to call telephone lines in states within his calling area as often as he likes and talk as long as he likes," the local manager said.

"No matter which area a customer buys, he can choose 'full time' service (unlimited calling 24 hours a day, all month long) or measured time service. The latter would give him 15 hours total calling per month. For additional time (over 15 hours) he would pay by the hour."

The Bell System's application says that rates for the service be made effective next Jan. 15, if the plan wins FCC approval. The first calling area for Quad-City customers would include Indiana, Kentucky, Missouri, Iowa, Ohio (South) and Tennessee. Each of the other calling areas would add more groups of states to the customer's calling scope.

"If a customer buys service to

all six areas he could call throughout the nation, except for Alaska, Alaska and Hawaii," Pelster said.

The six calling areas to be provided by WATS service were determined by a formula that considers both the average distance of calls and the number of telephones in each area.

"By buying the first area only, a Quad-City customer would be able to call about 10% of the nation's telephones, all located in states nearest Illinois. The second calling area would add another 10% and the remaining four areas each would increase the customer's calling scope by another 20% of the telephones in the country," Pelster said.

"As an example of the proposed rates for WATS service, Pelster said a Quad-City customer could buy full time calling to the first area for \$700 a month, or he could buy 15 hours per month for \$220 plus \$15 for each additional hour. Rates increase as additional calling areas are added.

"For example, if a Quad-City customer wants full time service to the whole country, the rate would be \$2900 monthly, or \$240 for 15 hours of calling. Each additional hour over 15 would be \$30," he added.

Pelster explained that WATS is intended as a supplement to regular long distance service, which is charged by the call, and private line service, which gives a customer unlimited calling between two or more fixed points for a flat monthly rate.

Odd Fellows, Rebekahs To Aid March of Dimes Drive

More than 200 members of the Odd Fellows and Rebekah Lodges in Granite City, Madison and Venice will take part in "Blue Crutch Day" when Jan. 3 to help launch the 1953 "March of Dimes" campaign. The lodge members will sell small blue crutch lapel emblems.

The Odd Fellows and Rebekahs are the first fraternal groups in Illinois to kick off the annual fund appeal on behalf of the March of Dimes which finances discovery of the Salk vaccine.

The lodge members are among some 65,000 Odd Fellows and Rebekahs who have volunteered

to sell the blue plastic crutches on street corners throughout Illinois to aid the March of Dimes in its national goal of \$45 million for the battle against crippling disease. The goal is to be met by continuing aid for polio victims for whom the Salk shot came too late and to support the expanded research program which seeks to find causes for the birth of babies with crippling defects and for arthritis which cripples thousands of children and adults annually.

This is a kickoff tag day event. There will be no solicitation of homes or business establishments.

FOUND OUT

Any man can make excuses, but a clever wife can find a life crack in every one that keeps it from ringing true.

EVERY THING

Ever serve hot walnuts with cheese and fruit? Put the unshelled nuts in a moderate oven for about an hour; serve the roasted tidbits at once.

EXPLAINS REAL MEANING OF CHRISTMAS

Dear Copy:

We still enjoy your Press-Record regularly even tho living a few miles away.

To Mr. Moss, who states their Christmas will always be sad. I am afraid he has missed the REAL meaning of Christmas.

His child and mine are not our own but loaned to us by God to recall at His will when their time of life on earth is accomplished. While we have them we are to train them for Life Eternal and the day when they are called home. This should be every parents vital concern.

Here we have no abiding city. But for me to live is Christ but to die is gain.

It is true many families this Christmas will have empty chairs but because Christ our Saviour was born on Christmas taking on our human nature and later dying for our sins on the cross. We can say "oh death where is thy sting? oh grave where is thy victory?"

Thanks be to God those of us who have sent Loved ones on ahead can have a truly Blessed Christmas with real address removed for...

"Unto you is born this day a Saviour which is Christ the Lord." Luke 2:11.

Sincerely

MRS. ARNALDA SCHERRE KRAHNE

Dear Neighbor:

In a few hours Christmas will be with us. It is a wonderful time of the year. It is a time of joy, peace and grace. It is a time when God is just a bit closer to life. Debbie has been singing her songs of Christmas while the choir has been singing. Bulah and I see a great spiritual truth in this season of the year. Debbie is counting the days by making an X on the calendar. She is full of anticipation. We listened to her pray and heard — "Thank you God, that you have a birthday and we can have Christmas!" This is Christmas. It is God's birthday. We may have a day that is full of joy and peace. It is more than giving gifts. Important as they may be...for we share our blessings with each other. It is more than singing carols...for within our hearts we should express glory to God. It is more than Christmas dinner...for we should feast upon the Spiritual truths that God brings to us from little Bethlehem.

Our family desires to share our Christmas blessings with you. It is God's birthday. What greater gift may we offer you than His Son, the Babe of Bethlehem. May you find in your stocking on Christmas morning rare gifts of joy. Find peace wrapped in silver Hope. The gift of Faith covered with golden assurance and eternal Love set radiantly in joyful platinum. What else may we bring but to give you — "Tidings of great joy, which shall be to all people. For unto you is born this day in the city of David a Saviour, which is Christ the Lord." May God abundantly bless you and keep you and may your Christmas be a Happy and a Blessed one.

Rev. John N. DiGiacomo, D.D.

Search For Missing Deaf-Mute Continues

A state-wide search for a missing Granite City deaf-mute continues, according to county law officials.

James W. Mason, 17, son of Mr. and Mrs. Harold Mason, 1408 Norwood drive, was reported missing after his arrival home last week from the School for the Deaf in Jacksonville.

No new leads have turned up county authorities said today.

He arrived home Thursday to spend the holidays with his parents, and shortly after left a note saying he would be back Saturday.

Young Mason left in the family car, and was last seen Friday at noon when he picked up a schoolmate in a station. The other boy told his parents they were going to Chicago and would return Saturday.

Mrs. Mason said the trip had originally been planned at school, since she found a map shown the route to be taken to Chicago.

Mrs. Mason said she thought her son might have been heading for Chicago to see his friends. A check was made there with no results.

Infant Stillborn Here

An infant girl was stillborn at 4:07 p.m. yesterday at St. Elizabeth Hospital. The parents, Mr. and Mrs. Harold Chorney, Bridgeton, Mo., had been on the way to Scott Air Force Base Hospital but halted their car at 3:15 p.m. Wednesday when the birth became imminent. They were taken by ambulance to the local hospital.

Jr. Service Club Annual Party Held Monday Evening

The Granite City Junior Service Club met Monday evening at Zimmerman's Village Inn in Florissant, Mo., for the annual Christmas party and dinner.

After a cocktail hour, the meal was served at tables adorned with evergreens intermingled with colored tree ornaments and white tapers. Favors were miniature brandy snifters containing the smallest of ornaments, in bright colors. Mrs. Della Puffy, the Coterie sponsor, gave the invocation.

Members, Mrs. Nadine Frith and Mrs. Helen Yeager, were initiated by Mrs. Jean Ann Vreeland, club president, who conducted a short business session. The Christmas project of the group will be furnishing clothing and food baskets to seven elderly women, all past 70, who were furnished by the Protestant Welfare Association and the Catholic Charities.

There also will be a contribution of \$25 to the Salvation Army "Tree of Lights," and a meeting is planned for Jan. 7 at 2 p. m. at St. Elizabeth Hospital for the purpose of further discussing volunteer work.

Gifts of the season were exchanged among the members who presented Mrs. Puffy with a gift from the club.

Games were enjoyed later and prizes were won by Mrs. Evelyn Morris, Miss Gray, Costello, Miss Virginia Judd, Miss Flora Mae Lending, Mrs. Louise Koenig, Mrs. Frith, Mrs. Imogene McClatchey, Mrs. Dorothy Melkamp and Mrs. Ruth Eberhardt.

NEAR that wondrous night of long ago, when an angel of the Lord appeared to the startled shepherds tending their flocks, —and said, "Fear not, for I bring you good tidings of great joy."—Christians have paid homage to Christ, the Son of God, on his natal day.

And so, again, as this festive day approaches, let us all pray and give thanks to our Heavenly Father for his great gift to mankind. In our devotions this Christmas, let us thank Him for his blessings upon us and upon our great country. Let us continue to reaffirm our faith in God, and to follow the Golden Rule. Let us pray to Him for Divine Guidance in our daily lives and to give strength and wisdom to our leaders, to further lead the way towards world peace.

Santa's Guest List May Hit Nearly 50,000 By Xmas Eve

Santa Claus will wind up his 30-day, pre-holiday visit late Saturday afternoon, at which time he is the considered estimate of tally-keepers something like 50,000 persons will have been at the Log Cabin headquarters at Edison avenue off 19th street.

The figure is not a free-swinging guess, but a plausible one. Records show since he arrived at Granite City on Nov. 25, the resident has had visitors from 30 states, something like 69 villages, towns and cities, in addition to the unimpaired throng of young and teen-age Quind-City-ans.

The all-over estimate includes not only the toddlers and small fry who have had personal greetings—and goodies—from Santa, but their parents as well. There are the thousands who made the stop-off to register for the four free bicycles Kris Kringle is to give away.

Santa's visit was arranged by the Associated Retailers & Civic Association. Alvin T. Barnes, its executive secretary, today said the troopings to the Log Cabin were indeed incredible, and set the 50,000 figure as "very reasonable and close to accurate."

He credited Santa's unfailing good humor, his patience and long, long hours he spent at his tasks of listening and recording the Christmas gift wishes of the very young.

And there is time remaining to make a visit to Santa. Today his hours run from 10 a.m. to 8:30 p.m. and the same "at home" schedule will be observed Friday.

Saturday, his final day, he'll be at his cabin at 9 a.m., and perhaps take off a little earlier in the afternoon—since it is Christmas eve and he has made a whole of a lot of traveling to do in making his yearly rounds Saturday night.

Barnes noted as "heartening" and a mite surprising the large numbers of out-of-townners who made the trek to Santa's local cabin.

"They came from a wide area of the southwestern sector of Illinois, and many crossed the river to see him," Barnes pointed out.

"Because names of those who have their photographs taken with Santa are recorded, we have been able to determine guests from 10 states."

GC Rotary Club Honors Wives, Past Presidents

Past presidents of the Granite City Rotary club were honored and wives of the Rotary members were guests as the club held its annual Christmas luncheon meeting Tuesday at the YMCA.

Entertainment was provided by the Granite City high school mixed glee club, which presented a program of Christmas music under the direction of Warren Simpkins.

Gifts were presented to the 35 Rotary-Anns included in the gathering of 75.

President Dean Mabery presided, and Arthur Kayser, social chairman, assisted in the arrangements.

Board Takes Steps To Delay JP Election

The Madison county board of supervisors has forwarded a resolution to the Illinois Association of County Officials in an effort to delay the April 4 election of justices of the peace and constables.

The board's action is the result of new legislation which permits only one JP and one constable in each of a maximum of five districts and elevates the officers to county officials with a \$6000 per year salary.

The new legislation by the state calls for justices and constables to be elected the same day, and drastically cuts back the number of officers.

Previously, the officers were elected and paid by the township. In Madison county, a total of 125 officers held the posts at one time.

Mayor Calls For Council Cooperation In Survey

Mayor Davis called for cooperation of the aldermen and department heads in carrying out a taxing agency survey. He read a letter to the council Monday night stating that Dr. Seymour Z. Mann of the Southern Illinois University staff conducting the study would be contacting each alderman as well as the heads of each city department.

The board's survey team is expected to set up headquarters in the city hall early next year. The study is to include all taxing agencies operating in the city to determine if each is providing ample benefits for the taxpayer's dollar.

Dr. Mann told the Press-Record last week he plans to complete the survey before next April's city election.

The mayor's letter was placed on file.

All-America City Bid Patterned After GC

If the city of St. Petersburg, Fla., is selected as an All-America City next month, much of the credit will go to Granite City, an All-America City winner two years ago.

This is the belief of William M. Parker, Jr., former Granite City mayor and former Granite City mayor and former Granite City mayor.

There are many similarities between the two cities — including an annexation program that provided a sound basis for growth — and St. Petersburg, Fla. city's preparation of background material for the All-America application was patterned after that of Granite City.

Formerly in the lathing and plastering phase of the construction industry, Parker moved two years ago from Granite City to St. Petersburg Beach, where he operates an apartment motel.

Read Of Award Here

A regular reader of the Press-Record, he followed with great interest Granite City's successful entry into the All-America City competition. One of the reasons for the city's success was the community's decision to seek the coveted designation.

Parker telephoned Mayor Leonard Davis this fall and arranged for city and Tri-Cities Chamber of Commerce to forward a detailed file on the presentation.

This was extremely helpful to the Florida group, which was required to follow with great interest Granite City's successful entry into the All-America City competition. One of the reasons for the city's success was the community's decision to seek the coveted designation.

graphs, including scenes at the city's traditional "Suntan Festival" and municipal birthday celebration held each July.

The presentation concludes that St. Petersburg Beach, is "an increasingly beautiful, semi-tropical island community, All-America in its approach to solving civic problems. A progressive citizenry with civic pride in community, churches and schools has developed. Population has increased three-fold.

"We have learned the American lesson shown by the union of the 33 original colonies — in unity there is strength."

"Ladies and gentlemen of the jury, we, the citizens of St. Petersburg Beach, Fla., plead guilty to the charge that we are an All-America City, rising out of a wilderness of conflicting aims, desires, politics and peoples, uniting in common purpose to search for the best American way of life for ourselves, our families and for the future generations of America."

Located on the Gulf of Mexico, the city is visited each year by many Quad-Cityans, Parker noted in thanking the local community for its aid.

Long Lake Amvets Give Xmas Baskets

Under chairmanship of Edward Bard, Amvets of Long Lake Post 187 have collected cash contributions and food donations to make possible the distribution of Christmas baskets for needy, unemployed and underprivileged families of the Pontoon Beach area.

Funds were derived in the main through collection bottles and cans placed in business establishments, stores, taverns and service stations of the area.

Bard said today that when collections are in, it is expected that there will be funds and direct contributions sufficient to fill between 14 to 17 baskets.

They will be provisioned with turkey, chicken, canned staples, special Yuletide "treats" and

Probable Lack Of Acceptance Cited As Delaying Economical Year-Round School

Year-round school has advantages and disadvantages, just as the present system has good and bad points, but the American Association of School Administrators currently is urging other forms of summer school building, according to information compiled by Supt. Harold M. Kaiser for the Granite City school board. A major reason cited is that the public probably would not accept the change.

An analysis by the AASA, newly released and included in the data supplied to the board, urges "extended use of all school facilities for educational and recreational purposes" but suggests three other plans instead of a system of four three-month vacation periods.

The plans are a 48-week school year for all pupils, a voluntary summer school program and a summer program in which faculty members are assigned to work shops, study, curriculum evaluations and preparation of instructional materials.

Studying this material, along with research by the Midwest Administrative Center of the University of Chicago, a state legal ruling and other references, Dr. Kaiser has outlined seven advantages of the quarter system, which the board has passed this month after receiving the adverse state opinion. A survey of construction needs has been started here instead.

Advantages listed by the superintendent are:

Facilities Wanted

1. The three months of the year when school buildings lie idle represent a great waste of existing facilities. This is particularly true when the public is asked to provide additional buildings to handle increased enrollments.
2. It would relieve the overcrowding in schools filled to capacity.
3. The plan might make unnecessary the construction of additional schools. The capacity of existing schools would be increased by one-third. Thus, an elementary school which houses 100 pupils at one time could serve the needs of 100 pupils without resorting to half-day sessions.
4. Since 166 classroom space will be needed, debt service, insurance costs, heating costs and the like will be reduced.

Higher Teacher Income

5. Teacher employment would be on the basis of a full year, increasing the income and the professional status of the teachers.

6. Experience has shown that the plan can be operated successfully with no detrimental effects upon the quality of learning and achievement by the pupils, or upon the physical growth and development of the children.

7. In the upper grades, particularly in the high school, talented individuals might be able to progress through the schools more rapidly by attending school the year around. They would thus be able to enter colleges and take greater advantage of those opportunities.

Disadvantages

1. The all-year school does not exist any day to the school year. Actually, it does the number of days that a pupil may attend without resorting to half-day sessions.
2. The built-in maximum restriction which cannot be expanded if the need should arise.
3. Says Assignment Arbitrary.

2. Assignment of pupils into unequal equal divisions during the school year, includes assignment of vacation periods, would be arbitrary action on the part of school authorities.

3. Building repairs, maintenance, painting and cleaning would be completed and might cause harmful interruptions in the school program.

4. Most families would resist a program which would disrupt family relationships during the traditional summer vacation periods. The situation would be further complicated if more than one child from the same family were enrolled in school.

5. Administrative problems such as orienting new teachers, processing transient children, maintaining continuity in educational and extracurricular curricula, determining staff assignments, scheduling staff vacations and the like would create innumerable complications.

6. Climatic conditions during certain seasons of the year, particularly in summer, might create poor learning conditions unless buildings were modified to meet the problem. This would be quite expensive in itself, i.e., air conditioning (New Granite City schools have basic facilities for future cooling systems.)

The American Association of School Administrators notes that the quarter plan has been advanced as a means of minimizing the teacher shortage and classroom needs.

Shifts Unnecessary

Advantages cited by the AASA are that each child is guaranteed as much instruction time as school deposits of pupils normally given, yet 25% more (actually 33% more) are cared for by approximately the same staff and with the same number of classrooms, laboratories, libraries and playgrounds; pupils graduate on schedule; double shifts together with the usual shortened day, are unnecessary; the need for new building and equipment facilities will be drastically reduced; expenditures for personnel, new construction and new equipment will be reduced; and with full-time employment for teachers and better annual salaries, the teacher-turnover problem will be less serious—teachers, especially men, would not be forced to seek summer employment or to turn eventually to occupations offering greater remuneration.

Problems listed by the AASA are that the division of pupil enrollment would have to be in four equal groups, both by elementary grades and high school subjects, or the economy would be reduced; prevailing patterns of family and community living militate against acceptance of the staggered quarter plan, and there would be either an uneven distribution of pupils, arbitrary assignment or the "insurmountable obstacle" of persuading families to accept the "inconveniences and hardships"; and cost of installing and operating air-conditioning would be considerable.

Transportation Costs

Also listed are less efficient bus loads, plus more months of employment for transportation personnel and consequently greater salary expenditure; children and youth would be neglected and juvenile delinquency encouraged unless families and community organizations quickly expended time and money to establish substitute community services for school-age youngsters out of school in the fall, winter and spring quarters; and activities, including sports, drama and music, would be difficult to achieve and administer under the staggered-term plan.

In his study, Dr. Kaiser noted that the term of all-year school or 12-month school "is subject to a variety of definitions. It is often interpreted to be a program for extending the school year or for enriching the quality of the educational program."

"Rochester, Minn., and Glencoe, Ill., are representative school systems with long histories of emphasis on the inservice training of their staffs during the summer months."

Unique Appeal

"The unique appeal of the all-year school—attendance at three of four 12-week quarters—is found in the possibility it offers of increasing available classroom space, with additional facilities being required, through better utilization of existing facilities."

"Articles written about the all-year school plan rely heavily upon judgments held by interested parties, rather than conclusions drawn from carefully designed research. Its practicality has been tested by a number of empirical means."

"At the present time," Supt. Kaiser continues, "no city school system operates its elementary and secondary schools on an all-year basis. The prevailing pattern is to use the summer term, one exists, for augmenting the services provided during the regular school year. School systems which have introduced the all-year school have eventually discarded it, usually for reasons unrelated to measurable effects on learning experiences."

Traced To 1904

"Bluffton, Ind., first introduced the four-quarter plan of school organization in 1904. The Bluffton plan, which limited the attendance of each child to three of four quarters, was discontinued in 1915."

"The all-year school plan reached the height of its popularity in 1930, when 13 cities had some or all of their schools so organized."

"Newark, N. J., began to experiment with the all-year school in 1921, and although it became a center of controversy, reported some satisfaction with the results. The plan originally was applied to two elementary schools situated in areas whose populations were predominantly foreign born. Its major purpose was to assist in overcoming the retardation and the pre-high school dropout of pupils from non-English speaking families."

"Ultimately, the plan was extended to eight elementary schools and one high school, all of which were located in congested and low-income sections of the city where recreational facilities were lacking. These schools operated on the basis of four three-month terms, with a week of vacation at Christmas and Easter, and two weeks in the summer. Pupils could elect to attend school either for three quarters or throughout the year."

In 1926, the Newark board of education, after voting to abandon the plan, requested the services of an outside consultant agency to examine the evidence relating to the success or failure of the all-year schools in that city.

Recommended By Survey Team

"Significantly, the survey team recommended that the all-year schools be continued, and that they be given additional facilities to make their work more efficient and more effective. However, the board stood by its earlier decision."

"In 1928, the Alliquippa, Pa., schools, faced with a sudden growth in enrollment and lack of funds for additional construction, turned to the all-year school as a solution to their problems. After the plan had been in operation for a time, the superintendent of schools reported favorably on the experiment."

"He indicated that there had been no detrimental effects observed upon either pupil progress in school or the physical growth and development of the children. In fact, he pointed out, pupil attendance was higher because, with fewer students enrolled at a given time, the compulsory attendance law was somewhat easier to enforce."

"Alliquippa reverted to the standard school year in 1930, when the financial problems became less acute."

Collide On Bypass 66

No injuries were reported in a collision of eastbound autos on Bypass 66 three miles east of Madison Avenue, Madison, on Monday. The drivers were Clarence Swearingin, 40, Route 35, Washington, D. C., and the driver of the auto in front of him, the Praseley auto approached from the rear.

Excavation Permit

A permit was granted Illinois Power Co. for an excavation 3130 feet long in the alley of the 2500 and 2600 blocks of East 25th street for installation of a replacement gas main. The permit also included several 4 x 4-foot street excavations.

These schools operated on the basis of four three-month terms, with a week of vacation at Christmas and Easter, and two weeks in the summer. Pupils could elect to attend school either for three quarters or throughout the year.

In 1926, the Newark board of education, after voting to abandon the plan, requested the services of an outside consultant agency to examine the evidence relating to the success or failure of the all-year schools in that city.

Recommended By Survey Team

"Significantly, the survey team recommended that the all-year schools be continued, and that they be given additional facilities to make their work more efficient and more effective. However, the board stood by its earlier decision."

Man Pleads Innocent To 'Careless' Charge

Ronald Miller, 51, of the 183rd Engineer Depot Co., pleaded innocent Tuesday before Police Magistrate Gasparovic to a charge of careless driving filed by Edward Lane, 63, of 2533 Rock road. Miller was released to depot military authorities to appear for a hearing Jan. 4. Lane said he based his complaint on an accident which occurred Dec. 7 on the lot at the First Granite City National Bank. According to the belated accident report, Lane was sitting in his parked car when the left rear fender was struck by an auto being operated in reverse. Miller said his car was not in operation that day.

Clothing Drive Response Is In The 'Bags'

The Labor Temple at 10414 State street is the central depot for the gathering of bags of used, serviceable wearing apparel collected in this week's Goodwill Industries clothing drive.

Bags — which are distributed to the volunteer campaign workers — are to be left at the labor headquarters. They will be picked up by Goodwill trucks and taken to the St. Louis work shops for cleaning, repair, renovation and reconditioning.

In turn, the clothing will be sold through Goodwill Industries' stores, and with this revenue, the Goodwill program of employment, rehabilitation and training of the handicapped is carried forward.

By mid-week, an estimated 500 of the manila clothing collection bags had been passed out. Organized by the Tri-City Trades and Labor Council, representatives of the 23,000 unionists, the clothing campaign ends Saturday, following a six-day concentrated effort.

Not only is organized labor joined in the Goodwill drive, but so are Granite City police and firemen, representatives of management, Sea Scouts and the wives of union members.

Bags collected by police and firemen will be left at the new fire house at 2200 Madison avenue. This is, however, only the collection depot for the clothing collected by the police officers and firefighters.

City Seeks State Aid For Overpass At 20th Street

A first step in another move for a railroad crossing over or underpass was taken Monday night when Granite City council members approved letters prepared by City Atty. William L. Beatty, asking the cooperation of the state highway department and Illinois Commerce Commission.

Beatty specified in his letter the over or underpass construction at the network of tracks at the 20th street crossing.

Also approved by the council was a letter sent by Beatty to the ICC calling for repairs to roadways at all railroad crossings within the city.

The council placed on file a notice from the Jacksonville Trailways bus lines that it has applied to the ICC for a 5% increase in all passenger fares.

10-Block Madison Avenue Whiteway Light-Up Tonight

A major span of the Madison Avenue new "great white way" will be lighted in full tonight unless the weatherman sets the time table away.

Completion of installation of the 36 mercury-vapor light standards from 14th to 24th street is timely in that it coincides with the celebration of the Christmas holidays, a period associated with lighting and gala decorations.

E. G. Schmitt, area service manager for the Illinois Power Co., explained today the job schedule calls for completion of the 10-block stretch by tonight.

Weather May Cause Delay However, Schmitt said that had weather may hamper the work but felt sure that the schedule could be met. In any case, he maintained, the work

should be completed before Christmas Day.

The R. Dron Electric Co. has the contract for the work, being done under direction and supervisory control of the Illinois Power Co.

Yet to be completed under the plan to illuminate Madison Avenue to the Granite City high school area is installation of lights from 24th to 30th street.

Schmitt said that extension of the white way to 30th street had been temporarily balked because of difficulties in securing "a few rights-of-way."

He was not prepared today to set a definite target date for completion of the remaining stretch of lighting.

Brighter Lights It was explained by a representative of the installing firm that the new mercury-vapor lights give more than double the amount of illumination provided by Granite City's incandescent street illumination.

The downtown incandescent lights are rated at 10,000 lumens. The Madison Avenue mercury-vapor lights have a 22,000 lumen rating.

The 36 standards, spaced at distances of from 100 to 120 feet are "staggered" set up on both sides of the thoroughfare.

The power company supplied all standards and materials for the 10-block lighting installation.

ANNOUNCING PAYMENTS TO RAMBLER BUYERS AS RAMBLER'S SALES VOLUME INCREASES

Why You Should Join Rambler's New Crusade For Adequate Progress Sharing With Customers

"I believe participation by all consumers in economic progress is absolutely necessary in meeting the nation's economic needs."

GEORGE ROMNEY
President, American Motors Corporation

Rambler's rise to a top position has put us in position to undertake a new crusade. This program, which could provide greater individual and national benefits than any we've yet undertaken, calls for customer progress sharing.

As volume goes up, costs come down. So, sharing economies that would result from a 30% Rambler sales gain over last year for the period December through March could provide payments to customers of \$18,698,000.

CONSUMER BENEFITS FROM LOWER PRICES

Because of low volume, we had to price our first Rambler Americans about equal with Chevrolet and Ford, traditionally "lowest priced."

As our output and economies increased, we shared the resulting economic advantages with Rambler customers. Despite inflation, we kept prices low. We also concentrated on durability and quality. That is why Rambler excels in trouble-free operation, as shown by trade surveys made by others.

What has this done? It has increased our sales—made us a vigorous new competitive factor, compelling all competitors to introduce compact cars. Their compact cars unquestionably are better buys than their big cars, because their big cars don't have the compact's advanced engineering.

Despite these moves to meet Rambler competition, Rambler American models are now priced not only below competitive big cars but below their economy compacts as well.

In addition, Rambler provides customers several exclusive trouble-free

engineering advances such as the acid-proof, rustproof Ceramic-Armored muffler and tailpipe.

The Rambler line includes three basic sizes of compact cars—Rambler American, Rambler Classic and Ambassador, the latter two developed after the original American series.

RAMBLER SALES SOAR

In two years, Rambler's per cent of market has more than doubled. For the last 38 straight months, Rambler sales have established a new record for that month. We want to continue this growth by serving you even better.

THE NEW RAMBLER CRUSADE

Our new Rambler crusade, like our compact crusade, is based on sharing Rambler progress with car buyers.

We believe the new Rambler crusade has timely significance. Our country currently is experiencing a mild economic slowdown—with rising foreign competition and weakness of the dollar.

Our larger competitors are considering partial manufacture and importation of cars for the U.S. market from abroad. There is a general profit squeeze.

We believe the greatest single economic cause is that relatively too much of the fruit of industrial effort has been going to a few well organized economic groups, not to the consumer.

CUSTOMERS TO SHARE RAMBLER PROGRESS

We decided there was something we could do. We decided to share future progress with ALL customers who take

HOW PAYMENTS TO BUYERS WILL BE DETERMINED IN AMERICAN MOTORS' CUSTOMER PROGRESS SHARING PROGRAM

IF SALES ARE UP	U.S. SAVINGS BONDS (Percent Year)	BOND PAYMENT SALES LEVELS			
		DECEMBER	JANUARY	FEBRUARY	MARCH
0%	\$125	45,247	97,671	140,129	195,866

SALES FOR SAME PERIOD LAST YEAR		30,165	65,114	93,426	130,631

NOTE: In all cases, "BUYER'S" means a person who actually takes delivery, not places an order.

WHY IT WILL PAY YOU TO BUY NOW. This unique program is cumulative and retroactive. Early buyers can get more, but never less bonds, than buyers in succeeding months. Your Rambler dealer will be happy to give you the complete details of the plan but here is a quick example of how it works and keeps on working for you!

If December Rambler deliveries increase 20% over last December, December buyers of new Ramblers or Metropolitans will receive \$30 bonds. As the four-month period progresses, additional bonds will be mailed to the December buyers each time the cumulative sales reach a higher bond payment sales level.

Also, if sales increase for the four-month period exceeds 50%, proportionate additional payments will be made to all buyers during any of the four months.

BOTH CUSTOMERS AND AMERICAN MOTORS GAIN

You have everything to gain and nothing to lose by joining this crusade. The same is true for us.

You can't lose because Ramblers are better than big cars and the best of the compacts. Ramblers are more trouble-free, more useful, lower priced.

You make your regular deal in the regular way for a new Rambler. You then may share proportionately in the economies and profits of higher Rambler volume in December, 1960, and the first three months of 1961.

We gain by acquiring more Rambler owners, which will make our growing market even larger in the future. That's because Rambler owners become Rambler salesmen and are the most loyal "repeat buyers" of any make.

Ask your neighbor all about his Rambler, then join the Rambler crusade. Join us in focusing the nation's attention on the essentiality of equitably sharing economic progress with ALL consumers IF THE WHOLE NATION is to prosper.

George Romney

P.S. Some may say one company can't do much about national problems as big and complex as those cited above. Well, that's what skeptics said about Rambler's first crusade. Let's remember, every great thing is born small. If this new Rambler crusade is right, it can succeed and spread, just as the compact car concept did.

Mr. Romney's recent New York Press Conference on "Customer Sharing and the Nation's Economy" attracted nationwide media. For complete text of his statements, write American Motors, Box 29, Detroit 25, Mich.

Monkeys are caught by filling a coconut shell with chopped coconut meat. The monkeys grasp a nut and, unable to let go any, cannot withdraw their paws. So, they are easy victims. The U.S. consumer is not yet as savvy as shown, but unless there is a more equitable division of the productivity increases, he will get that way. One of the three American groups must let go and set an example—or all will be captured and, along with the consumer, all will suffer.

O Lord, make us instruments of Thy Peace - Where there
is hatred, let us sow love - Where there is injury, pardon
- Where there is discord, union - Where there is doubt,
faith - Where there is despair, hope - Where there is
darkness, light - and where there is sadness, joy.

O Divine Master, grant that we may not so much seek
to be consoled as to console - To be understood, as to
understand - To be loved, as to love - For it is in giving
that we receive - It is in pardoning that we are pardoned -
And it is in dying that we are borne to Eternal life.
